Date: 2026-03-05

- Original sentence (removed / changed)
- New sentence (replacement)
- Merged into another row / skipped

Step 1 — Keyword Integration

Keywords file: `japanese-candlesticks_keywords.xlsx` · 7 integrated · 3 skipped

#	ORIGINAL SENTENCE	NEW SENTENCE	KEYWORD	VOL.	STATUS
1	- There are hundreds of different candlestick patterns — you do not need to know all of them.	+ There are hundreds of different candlestick chart patterns — you do not need to know all of them.	candlestick chart	3500	DONE
2	- This lesson covers the most common types of candlesticks you should know.	+ This lesson covers the most common types of candlesticks used in candlestick trading.	candlestick trading	800	DONE
3	- Japanese candlesticks are among the most widely used tools in technical analysis.	+ Japanese candlestick patterns are among the most widely used tools in technical analysis.	japanese candlestick patterns	300	DONE
4	- The key advantages of candlestick patterns are simplicity and informational value.	+ The key advantages of candlestick analysis are simplicity and informational value.	candlestick analysis	100	DONE
5	- "traders learn how to read candlesticks" already present in V2	*unchanged*	how to read candlesticks	1500	DONE
6	- (no intro sentence before Two-candle H3s)	+ Added: "Engulfing candlestick patterns are the most common two-candle reversal signals in price action trading."	engulfing candlestick patterns	50	DONE
7	- Indecision patterns (doji, spinning top) carry the most weight at key support and resistance levels.	+ Reversal candlestick patterns — especially doji and spinning top — carry the most weight at key support and resistance levels.	reversal candlestick patterns	900	DONE
8	*hammer candlestick*			5800	SKIP
9	*bullish hammer*			600	SKIP

#	ORIGINAL SENTENCE	NEW SENTENCE	KEYWORD	VOL.	STATUS
10	*falling three methods*			150	SKIP

Step 2 — Tone of Voice Rewrite

Topic classification: BEGINNER · 9 changes

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
1	- After a brief familiarization, traders learn how to read candlesticks and quickly determine what is happening in the market — whether buyers or sellers are in control, and whether a trend is likely to continue or reverse.	+ Traders learn how to read candlesticks quickly — identifying whether buyers or sellers are in control, and whether a trend is likely to continue or reverse.	ToV "After a brief familiarization" = academic preamble; "determine what is happening in the market" → specifics already follow in the dash clause
2	- A typical example can be seen in the candlestick chart below.	+ The patterns covered in this lesson illustrate this directly.	ToV passive "can be seen"; dangling "below" (no image in this section)
3	- The long day bullish candlestick consists of one candle with a long body and short wicks.	+ The long day bullish candlestick has a long body with short wicks.	ToV "consists of one candle with" redundant in single-candle section; tighter active construction
4	- It signals strength and is often seen as a breakout candle at the beginning of a trend.	+ It signals market strength — often appearing as a breakout candle at the start of a new trend.	ToV "is often seen as" passive → active participial; "at the beginning of" → "at the start of" (concise)
5	- There are two situations where you can make a trading decision with a bullish marubozu candlestick:	+ A bullish marubozu provides two clear trading signals:	ToV existential "There are... situations where you can" → direct active construction
6	- The short day candlestick indicates that price stayed within a range during the trading period, suggesting an expansion may follow.	+ The short day candlestick indicates that price stayed within a range, with expansion likely to follow.	ToV "during the trading period" redundant (candle = trading period); "suggesting... may" → "likely to" (confidence level 4)

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
7	- Compared to a regular doji, it is more dramatic — with long upper and lower wicks extending significantly in both directions.	+ Compared to a regular doji, it is more pronounced — with upper and lower wicks extending well beyond the body in both directions.	ToV "dramatic" subjective/casual → "pronounced" precise; "significantly" vague → "well beyond the body" specific
8	- Like the spinning top, it signals indecision and a possible reversal.	+ Like the spinning top, it signals indecision and a potential reversal.	ToV "possible" = weak hedging → "potential" standard professional framing
9	- The **bullish engulfing** is the first two-candle pattern in this lesson. It forms with a small bearish candle on the left and a larger bullish candle on the right.	+ The **bullish engulfing** forms with a small bearish candle on the left and a larger bullish candle on the right.	ToV "is the first two-candle pattern in this lesson" = lesson-meta reference, redundant after Step 1 intro sentence; two sentences merged

Step 3 — Structure & Formatting

#	CHANGE TYPE	DESCRIPTION	REASON
1	Prerequisites added	Blockquote after ToC: Introduction to Trading + Trader's Dictionary	Structure Guide: prerequisites always stated; BEGINNER lesson requires learning path context
2	Table repositioned	Pattern summary table moved from after Key Takeaways → before Key Takeaways	Structure reference summary precedes takeaways (inverted pyramid at section level)
3	Internal link added	"uptrend" → /lesson/market-environment-range-vs-trend/ in Bullish marubozu section	Structure Guide: min. 3–5 internal links; brings total to 4 unique links
4	Author box updated	"Published: 2023-03-01" added alongside Last Updated	E-E-A-T Trustworthiness — content freshness signals require both publish and update dates

Step 4 — HTML Conversion

#	ELEMENT	DESCRIPTION
1	Template	v2_balanced applied
2	ToC	Styled block: #f5f5f7 bg, #123a83 text, nested H2-level
3	Prerequisites	Removed (CMS handles — markdown only)
4	Callouts	Warning (#fff8e1 + orange border), Tip (#e8f4fd + blue border), Keep in Mind (#f0f4e8 + olive border)
5	Table	#123a83 header, striped rows
6	Images	All 18 images at original positions with descriptive alt text
7	Author box	Published + Last Updated dates
8	Disclaimers	Educational Notice (gray bg) + Risk Warning (yellow bg, orange border)
9	Typo fix	Bearish engulfing: "small bullish candle on the right" → "on the left"
10	Branding	Poppins font, #0781fe / #123a83 / #c6c6c6, max-width 1160px, responsive

Summary

STEP	STATUS	CHANGES
Step 1: Keywords	DONE	7 applied, 3 skipped (hammer/bullish hammer/falling three methods — not in original article)
Step 2: ToV Rewrite	DONE	9 sentence changes; classification: BEGINNER
Step 3: Structure	DONE	4 structural changes; paragraph audit: all clear
Step 4: HTML	DONE	v2_balanced template; 18 images; 4 internal links
