- Original sentence (removed / changed)
- New sentence (replacement)
- Merged into another row / skipped

Step 1 — Keyword Integration

Keywords file: `types-of-trading-charts_keywords.xlsx` · 12 integrated · 1 skipped

#	ORIGINAL SENTENCE	NEW SENTENCE	KEYWORD	VOL.	STATUS
1	- ## Types of trading charts – candlestick chart, Renko, Heikin Ashi	+ H2 removed in Post-QA – keywords integrated into H1: `Types of Trading Charts: Candlestick Charts, Renko Charts, and Heikin Ashi`	candlestick charts / renko charts	1000 / 400	DONE
2	- ### Renko	+ ### Renko Charts	renko charts	400	DONE
3	- ### Heikin Ashi	+ ### Heikin Ashi Candles	heikin ashi candles	1400	DONE
4	- Heikin Ashi is another chart representation that comes from Japan.	+ Heikin Ashi candles are another chart representation that comes from Japan.	heikin ashi candles	1400	DONE
5	- here we can have a look at how the Heikin Ashi candle is calculated	+ here we can have a look at how the Heikin Ashi candle formula works	heikin ashi candle formula	150	DONE
6	- Although most traders are using candlestick charts	*unchanged — keyword already present*	candlestick charts	1000	DONE
7	- Renko is similar to the range and tick charts.	+ Renko charts are similar to range and tick charts.	renko charts	400	DONE
8	- In the tick chart, one tick represents one transaction.	+ In a tick chart, one tick represents one transaction.	tick chart	700	DONE
9	- Our traders can use tick and range charts	+ Our traders can use tick charts and range charts	tick charts / range charts	100	DONE
10	- Bar charts, often called OHLC charts	*unchanged — keyword already present*	ohlc charts	40	DONE

#	ORIGINAL SENTENCE	NEW SENTENCE	KEYWORD	VOL.	STATUS
11	- We have covered Japanese candlesticks in the previous lesson	*unchanged — keyword already present*	japanese candlesticks	200	DONE
12	- Heikin Ashi filters out the movements and makes a much easier approach to trend following.	+ Added after: `Many traders incorporate it into their Heikin Ashi strategy specifically for trend-following entries.`	heikin ashi strategy	250	DONE
13	*various*			—	SKIP

Step 2 — Tone of Voice Rewrite

Topic classification: BEGINNER — Part 2, Technical Analysis, Lesson 2. Introductory charting concepts. · 36 changes

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
1	- What are the specifics of these charts and how do they differ? You will find out in this lesson.	+ This lesson covers the main types of trading charts, what makes each one different, and how to choose the right display for your analysis.	ToV BEGINNER: "This lesson covers..." opener; original was a vague rhetorical question
2	- The ways of displaying data on our price chart are pretty much endless.	+ Price charts can be displayed in nearly unlimited ways.	ToV casual "pretty much" → "nearly"; inverted pyramid — direct statement first
3	- This is why we will never find two traders that do and watch exactly the same things in their trading.	+ This is why no two traders watch exactly the same things.	ToV redundant "do and"; shorter, more direct
4	- Although most traders are using candlestick charts which we covered in the previous video, there is more depth in those as well.	+ Although most traders use candlestick charts — covered in the previous lesson — there is more depth to explore.	ToV "previous video" → "previous lesson"; "are using" → "use"; "in those as well" → clearer
5	- Besides candlestick charts, we will also have a look at different graphical representations of price charts such as bar charts, Renko or Heikin Ashi charts.	+ This lesson also covers bar charts, Renko charts, and Heikin Ashi candles.	ToV "we will have a look at" → direct statement; shorter
6	- We have covered Japanese candlesticks in the previous lesson, so we will do just a quick recap now.	+ Japanese candlesticks are covered in the previous lesson. Here is a quick recap.	ToV "just" filler removed; split into two shorter sentences

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
7	- They are the most popular methods of charting and viewing technical analysis.	+ They are the most widely used chart type in technical analysis.	ToV "most popular methods of charting and viewing" → cleaner, more precise
8	- If the candle closes below the open, we look at a bearish candlestick.	+ If the candle closes below the open, it is a bearish candlestick.	ToV "we look at" → "it is" (factual, direct)
9	- As we can see in the image below, we have two candlestick charts next to each other in our FTMO cTrader platform.	+ The image below shows two candlestick charts side by side in the FTMO cTrader platform.	ToV "As we can see" filler removed; active sentence
10	- Although they look the same, there is one significant difference between them.	+ Although they look the same, there is one significant difference.	ToV "between them" redundant (implied)
11	- The time periodicity is the most popular and common amongst traders.	+ Time periodicity is the most common choice among traders.	ToV "most popular and common" redundant → "most common"; "amongst" → "among"
12	- Although we can set up our chart with any setting we want, using those popular timeframes works simply because many traders are also watching them.	+ You can set up a chart with any periodicity, but standard timeframes work because many traders monitor them.	ToV "simply" filler removed; "watching" → "monitor"; "any setting we want" → "any periodicity"
13	- If we use something like a 40-minute or 3-hour chart, the candlestick patterns on our chart might have a lower weight as no other traders see them.	+ A 40-minute or 3-hour chart carries less weight — fewer traders monitor those intervals, so candlestick patterns formed on them have reduced significance.	ToV "might have a lower weight" → "carries less weight"; "as no other traders see them" → specific and direct

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
14	- The non-time-based charts are less common, but they still can give traders valuable information.	+ Non-time-based charts are less common, but they can still provide valuable information.	ToV "still can give" → "can still provide"; removed unnecessary "The"
15	- Our traders can use tick charts and range charts in our FTMO cTrader platform, these two are also the most popular non-time-based charts.	+ In the FTMO cTrader platform, traders can access tick charts and range charts — the two most popular non-time-based options.	ToV comma splice fixed; "Our traders" → "traders"; cleaner structure
16	- In other words, one tick is made when the market fluctuates by the minimal price increment.	+ One tick occurs when the market moves by the minimum price increment.	ToV "is made" passive → "occurs"; "In other words" filler removed; "minimal" → "minimum"
17	- If we take a look at EURUSD, which is quoted in five decimal places.	+ Take EURUSD as an example — it is quoted in five decimal places.	ToV + Grammar: sentence fragment fixed; direct framing
18	- One tick would equal 0.00001 or 1 pipette.	+ One tick equals 0.00001, or 1 pipette.	ToV "would equal" → "equals" (factual, present tense)
19	- Using a range of tick charts can eliminate noise and display trends in a much clearer picture as we will get rid of time periods when markets are not moving and staying range-bound.	+ Range and tick charts eliminate noise and display trends more clearly by removing periods when price is not moving.	ToV long sentence → shorter; "in a much clearer picture" → "more clearly"; "we will get rid of" → "removing"
20	- This can be clearly seen when we compare this DAX four-hour chart with the 100 range chart in cTrader.	+ The effect is visible when comparing a DAX four-hour chart with a 100-range chart in cTrader.	ToV "This can be clearly seen" passive → active; vague "this" removed

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
21	- We can notice that both uptrend and downtrend were much cleaner on the range chart once we eliminated the time factor and put our focus on price rotations.	+ Both the uptrend and downtrend appear cleaner on the range chart once the time factor is removed and focus shifts to price rotations.	ToV "We can notice" filler removed; "put our focus on" → "focus shifts to"
22	- Bar charts, often called OHLC charts, are represented as vertical bars with two notches that represent the open and close of the bar.	+ Bar charts, often called OHLC charts, display as vertical bars with two notches indicating the open and close of each bar.	ToV "are represented as" passive → "display as" active
23	- Compared to Japanese candlesticks, bar charts might be a little less clean for new traders when it comes to candlestick patterns.	+ Compared to Japanese candlesticks, bar charts are less intuitive for new traders when reading candlestick patterns.	ToV "might be a little less clean" → "are less intuitive"; "when it comes to" filler removed
24	- On the other hand, they might present a little cleaner picture when it comes to marking out support and resistance.	+ On the other hand, they may provide a clearer view for marking support and resistance levels.	ToV "might present a little cleaner picture" → "may provide a clearer view"; "when it comes to" removed
25	- It eliminates the time factor from trading and changes the visuals of our chart completely.	+ Renko eliminates the time factor from trading and changes the chart's visual representation entirely.	ToV + Grammar: "It" ambiguous pronoun → "Renko"; "visuals of our chart" → "chart's visual representation"
26	- We won't see candlesticks anymore, but we will be looking at bricks instead.	+ Instead of candlesticks, the chart displays bricks.	ToV more direct; contraction removed; unnecessary "anymore" removed

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
27	- The name Renko came from the Japanese renga, which stands for brick.	+ The name comes from the Japanese word renga, meaning brick.	ToV tighter; italics added for foreign word
28	- Let's say we define that one brick signifies a movement of 5 pips.	+ For example, if one brick represents 5 pips...	ToV "Let's say" casual → "For example, if"; "signifies a movement of" → "represents"
29	- Renko charts are not only great for filtering out noise but also for marking out support and resistance areas.	+ Renko charts are effective for filtering out noise and marking support and resistance areas.	ToV "great" hype word → "effective"; "not only... but also" → simpler
30	- It means 'average bar' and although this is not something we need to know, here we can have a look at how the Heikin Ashi candle formula works.	+ The name translates to 'average bar.' Here is how the Heikin Ashi candle formula works:	ToV "this is not something we need to know" dismissive → removed; "here we can have a look" → "Here is how"
31	- We can set up a Heikin Ashi chart as we want, on the specified time, range or tick.	+ A Heikin Ashi chart can be set up on any preferred timeframe — time-based, range, or tick.	ToV "as we want" casual → "on any preferred timeframe"; clearer enumeration
32	- Heikin Ashi filters out the movements and makes a much easier approach to trend following.	+ Heikin Ashi smooths price movements and simplifies trend following.	ToV "filters out the movements" → "smooths price movements"; "makes a much easier approach" → "simplifies"
33	- The downside of it is that we might miss some valuable information as it might smooth out the chart a little too much.	+ The trade-off is that some price detail is lost — the smoothing can obscure short-term signals.	ToV "The downside of it is that" → "The trade-off is that"; "a little too much" casual removed; more specific

#	ORIGINAL SENTENCE (FULL)	NEW SENTENCE (FULL)	REASON
34	- But it is a great tool for both entries and trade management.	+ However, it remains an effective tool for both entries and trade management.	ToV "But" sentence start → "However,"; "great" → "effective"
35	- To conclude this chapter, the best thing we can do is to play with different charts and settings and find what suits us the best, that is always the smartest approach.	+ Experimenting with different charts and settings is the most effective way to find what works for your trading style.	ToV "To conclude this chapter" filler removed; "play with" → "experimenting with"; "us" → "your" (consistent reader address)
36	- But tick charts, range charts, Renko or Heikin Ashi, can be utilized in our strategy and bring a lot of use to our personal trading.	+ However, tick charts, range charts, Renko charts, or Heikin Ashi candles can all be incorporated into your strategy and add value to your trading.	ToV "But" → "However,"; "bring a lot of use" vague → "add value"; "our personal trading" → "your trading"

Step 3 — Structure & Formatting

~600 words → Short (<1000 words) → limits: 1–2 callouts, 1 table, 1–2 lists

#	CHANGE TYPE	DESCRIPTION	REASON
1	**Prerequisites added**	`> **Prerequisites:** [Japanese Candlesticks](/lesson/japanese-candlesticks/)` at top	E-E-A-T learning path; lesson explicitly references prior lesson
2	**Bold — key terms**	**candlestick charts**, **bar charts**, **Renko charts**, **Heikin Ashi candles** in H2 intro	Structure key terms bolded on first use for scanning
3	**Internal link**	"Japanese Candlesticks" → `/lesson/japanese-candlesticks/` in H3 opener	Structure prerequisite linked inline
4	**Bold — anatomy terms**	**body**, **wick** in candlestick anatomy paragraph	Structure first-use term highlighting
5	**H4 added**	`#### Time-Based Charts` before periodicity content	Structure Candlestick Charts section splits into two distinct topics; H4 adds scannability without skipping levels
6	**Bold — term**	**Chart periodicity** on first use	Structure key concept highlighted
7	**Callout Tip added**	After standard timeframes paragraph — "Standard timeframes (1H, 4H, Daily) are monitored by a large number of traders simultaneously..."	Structure actionable insight; 1 callout for this H3 section
8	**H4 added**	`#### Tick and Range Charts` before non-time-based content	Structure logical split of time-based vs non-time-based; parallel H4 structure
9	**Bold — terms**	**tick charts**, **range charts** on first use	Structure key terms highlighted
10	**Bold — term**	**bar chart** on first use in H3 Bar Charts	Structure first-use term highlighting
11	**Internal link**	"support and resistance" → `/lesson/support-and-resistance/` in Bar Charts section	Structure inline link to related concept mentioned in text

#	CHANGE TYPE	DESCRIPTION	REASON
12	Internal link	"support and resistance" → `/lesson/support-and-resistance/` in Renko Charts section	Structure second mention also linked (different H3 section)
13	Callout Keep in Mind added	After Heikin Ashi effect paragraph — cognitive bias warning for TA lessons	Structure standard Keep in Mind for all TA lessons per Structure Guide
14	Comparison table added	Conclusion — 4 chart types × Time-Based / Best For	Structure comparison data from existing content; aids decision-making
15	Key Takeaways section added	6 bullet points — one per chart type/concept	Structure scannable recap; E-E-A-T helpfulness signal
16	Next Steps section added	3 internal links: Market Environment, Support & Resistance, Technical Indicators	Structure 3–5 internal links requirement met (5 total including inline)
17	Author box added	"FTMO Academy Content Team / Last Updated: March 5, 2026"	E-E-A-T authorship and freshness signals
18	Educational Content Notice added	Standard disclaimer callout at article end	YMYL: required for all lessons
19	Risk Warning added	Standard risk disclaimer at article end	YMYL: required for all lessons

Summary

STEP	STATUS	CHANGES
Step 1: Keywords	DONE	12 changes applied, 1 SKIP (off-topic keywords)
Step 2: ToV Rewrite	DONE	36 changes — casual markers, hype words, passive voice, sentence fragments, filler phrases
Step 3: Structure	DONE	19 changes — H4s, callouts, table, Key Takeaways, Next Steps, E-E-A-T elements
Step 4: HTML	DONE	v3_standard template; 5 images placed at exact original positions; BEM callouts; :root CSS variables; responsive
Step 5: QA	DONE	All checks passed. 2 minor notes (short caption sentence, list-like H2) — both acceptable. Article approved.
Post-QA Amendments	DONE	H1 expanded, H2 container removed, headings promoted, ToC added, image resized — see below
